

MiDAS 4.0 Express

Version 4.5.1.2 -- Release Notes

General Description

This version update incorporates changes to the installer and licensing scheme to support Windows 7.

Detailed Changes

1. Made system more robust when closing multiple playback views rapidly.
2. Modified the installer and licensing scheme to be compatible with Windows 7.

Installation Instructions

Run the installation executable and follow the on-screen instructions. This version introduces a new installation scheme that should be simpler than our previous installation scheme.

Operating Systems

The installation and licensing have been tested on Windows XP, Vista, and Windows 7. This version contains tested camera drivers for Windows XP Professional Edition only. MiDAS 4.0 Express has not undergone thorough testing with Microsoft Windows Vista or Windows 7. We recommend using Windows XP Professional Edition.

Hardware and Camera Compatibility

MiDAS 4.0 Express supports the Troubleshooter line of cameras from Fastec Imaging running the following firmware:

- MX1 model cameras: release 274
- MX21 model cameras: release 308 or higher.

Contact Fastec Imaging for updates to your camera firmware. MiDAS 4.0 Express only works with MX1 cameras and MX21 cameras with serial numbers 070857X or newer.

MiDAS 4.0 Express also now supports the Sportscam cameras and TroubleShooter LE cameras from Fastec Imaging.

How to get Technical Support

Technical support addresses, URLs and phone numbers are found in the Help--> About box within the MiDAS 4.0 Express software. Please have your activation code, registration number and software version number available when calling.
